# 1 Intended Use

Join In is designed to allow AAC users to enjoy the full experience of leading sites and apps. The current release of Join In supports the following apps:

- Facebook
- Facebook Messenger
- Instagram
- Spotify
- Netflix
- YouTube
- WhatsApp
- SMS (Android Messages)
- Google Calendar
- MSN (Microsoft News)
- Zoom
- Audible
- Kindle
- Google - Translate

Join In users interact with the apps using their preferred Communicator 5 Accessibility method (eyetracking, switches, touch, etc.) and their preferred Communicator 5 keyboard. The user controls apps using Communicator 5 pages, typically located on the left side of the screen, while the apps use the browser, which occupies the rest of the screen. In some cases, Join In allows eye tracking and touch users to directly select from the browser area.

The content of each toolbar is determined by the activity the user wants to perform, and the content of the site/app.

Typically, the entire interaction of the user with the site/app, is done using the toolbars. In some cases, direct selection is enabled. In these cases the button "Dwell Select" will appear, and selecting it will enable direct selection.

For each site/app, the user can control options like the textsize, set Auto Read to On or Off, etc. The buttons "Options" and "More Options" typically lead to these capabilities.

For recovery, the user can refresh the Site/App, navigate to specific links, etc. These capabilities usually can be found under "Utilities".

# 2 Installing and Starting Up

## 2.1 Installing

On a Tobii Dynavox I–13 or I–16 device Join In will be pre-installed.

1. Make sure Tobii Dynavox Communicator 5 release 5.5.4 or later installed.
2. Browse to the location of Join In
3. Run the installer D-Bur\_C5\_Installer.exe
4. Run the installer D-Bur\_C5\_Page\_Sets.exe

## 2.2 Before Start

- Make sure the device is connected to the Internet.
- Make sure a valid license / subscription is available.
- On all devices, except the Tobii Dynavox I-13 or I-16, the user will receive a Join In login and password. Please log-in using the “Join In login” page set. Login is required only the first time you use your device.

On a Tobii Dynavox I–13 or I–16 device Join In will be pre-installed.

- Use the **Join In Options** page set to setup the desired accessibility preferences. With the **Join In Option** page set the preferred access method can be set and some of its parameters, like dwell time. The parameters set here, are active across all Join In apps, but will not affect selection of Communicator 5 buttons.

# 3 First Start Up

1. Add the new Page Sets to the Home Page.  
The Page Sets can be added by following this path:
  - a. Select the **Edit Home Page** button from the Home Page or from the Quick Menu.
  - b. Select the **Add Page Sets** button
  - c. Select the **Text Communication** button
  - d. Select **Add-on products** tab

These steps does not have to be performed on an Tobii Dynavox I-Series I-13 or I-16 device.

2. Select the **Join In Sign In App**
3. Select the **Join In Sign In** button.
4. Locate the **Login** and **Password** information sent to the user.

The email address is the login name.

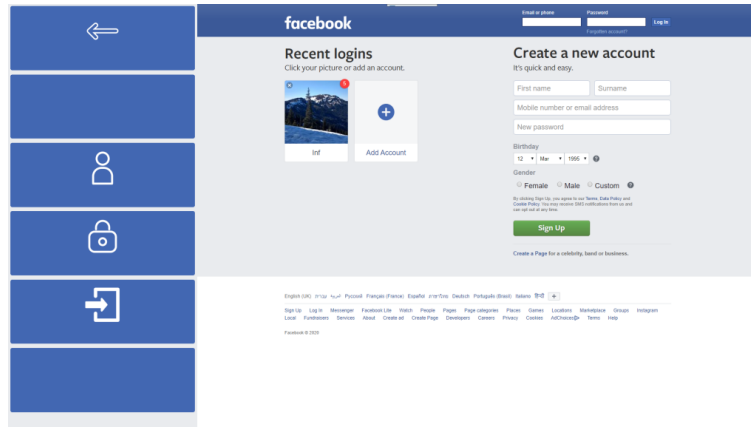

5. Select the **Email** button.
6. Type in the Email.
7. Select the **Confirm** button.
8. Select the **Yes** button.
9. Select the **Password** button.
10. Type in the Password.
11. Select the **Confirm** button.
12. Select the **Yes** button.
13. Select the **Sign In** button.
14. Select the **Exit** button to leave the Sign In Page Set.

# 4 Facebook

## 4.1 Requirements for Facebook

- A Facebook account
- The Login and password information for the user must be available

## 4.2 First Start of Facebook

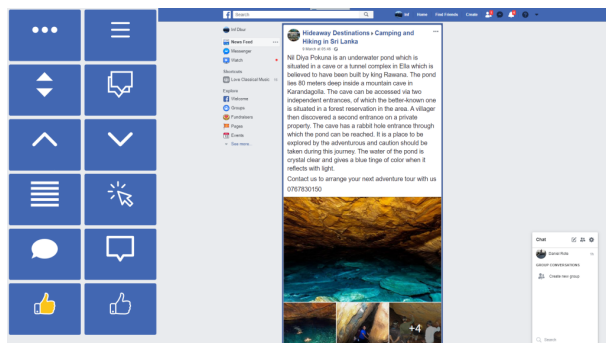

1. Select the  **Accessible Facebook Page Set.**
2. Select the  **Login and Info** button.
3. Select the  **Log In** button.
4. Select the  **Email or Phone** button.
5. Type in the Email address or Phone number for the Facebook account.
6. Select the  **Confirm** button on the keyboard.
7. Select the  **Yes** button if the Email address is entered correctly.
8. Select the  **Password** button.
9. Type in the Password for the Facebook account.
10. Select the  **Confirm** button on the keyboard.
11. Select the  **Yes** button if the Email address is entered correctly.
12. Select the  **Log In** button to login the user to Facebook.

## 4.3 Start Facebook

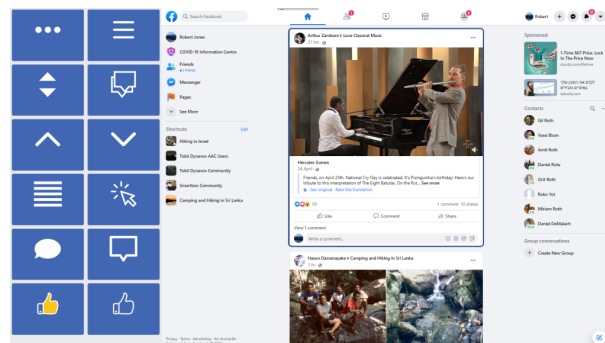

1. Select the  **Accessible Facebook Page Set.**

- Select the  **Facebook** button.

## 4.4 Facebook Home Page

Facebook

New Facebook

Add , edit, delete, share or translate (when translation is offered by Facebook) the selected post. View the post author profile.	 Post Option	 Menu	Go to Facebook menu. For more information, see 4.5 Facebook Menu, page 10
Go to the selected post comments, to browse, open or respond.	 Comments	 More Comments	Open more comments to the selected post.
Select the post above the currently selected post. If no post is selected, selects the first post.	 Post Up	 Post Down	Select the post below the currently selected post. If no post is selected, selects the first post.

Recover / reopen WhatsApp, close windows you do not need, close pop-up messages, zoom in or zoom out...	 Utilities	 Options	Change the device volume, toggle text enlargement, turn auto-read of contact-names and message-text on or off, additional WhatsApp options.
Exit YouTube and go to the Communicator Home Page	 Exit (Communicator Home Page) button.		

## 10.6 Exit WhatsApp

1. Select the  **Menu** button.
2. Select the  Exit (Communicator Home Page) button.
3. Select the  **Close and Exit** button.

# 11 Zoom

## 11.1 Before You Start

Accessible Zoom supports the following main flows:

- Creating a Zoom meeting, and inviting others to participate in the meeting. The invitation link can be sent by WhatsApp, Facebook Messenger or SMS.
- Join a meeting that you have been invited to. Joining can be done by clicking a meeting link sent to you by WhatsApp, Facebook Messenger or SMS (Android Messages).

You can also join by manually enter the meeting number and password.

- While in a meeting, you can:
  - Talk (using your Communicator 5 voice)
  - Participate in the chat
  - Share your screen
  - Etc.

For security reasons, Zoom does not keep you logged in all the time. Because you will need to log in manually many times, we recommend that you do it, using your Facebook or Google accounts. This makes the login process very simple.

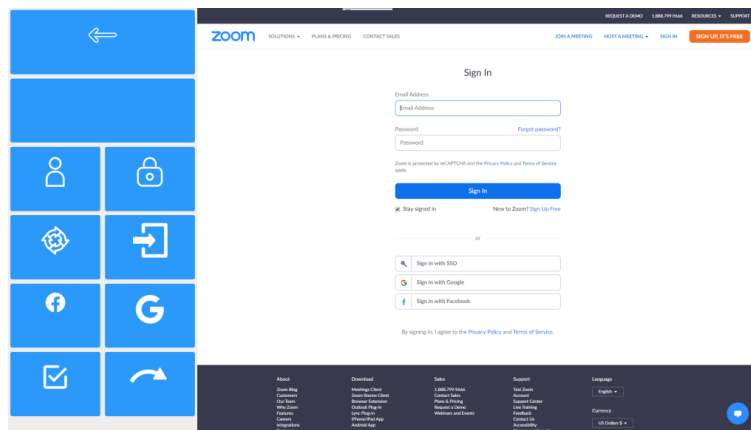

From time to time Zoom may ask you to confirm that you are not a robot, and to solve a Captcha. Accessible Zoom provides an “I’m not a robot” button. To solve the Captcha (if required) you can either open Computer Control, or click the Solve Captcha button. **To minimize the number of times the Captcha appears, we recommend that you always make sure that you are logged in, before trying to join a meeting.**

## 11.2 Requirements for Zoom

There are no requirements for using Zoom.

## 11.3 First Start of Zoom

- Logging into Zoom is recommended, since users who are logged in will face fewer security challenges from Zoom.
- Unlike most other apps, Zoom will log you out from time to time. To avoid having to key in your username and password every time Zoom logs you out, we recommend logging in using your Google or you Facebook accounts – a process that involves only a single click.

Go back to the previous page	 Back		
Type in the user email address	 Email	 Password	Type in the user password
Here the user can solve the Captcha questions	 Solve Captcha	 Sign In	Sign in the user account.
Sign in with the Facebook user account	 Sign in with Facebook	 Sign in with Google	Sign in with the Google account
Activate the <b>Remember Me</b> function	 Remember Me.	 Sign in with Google	

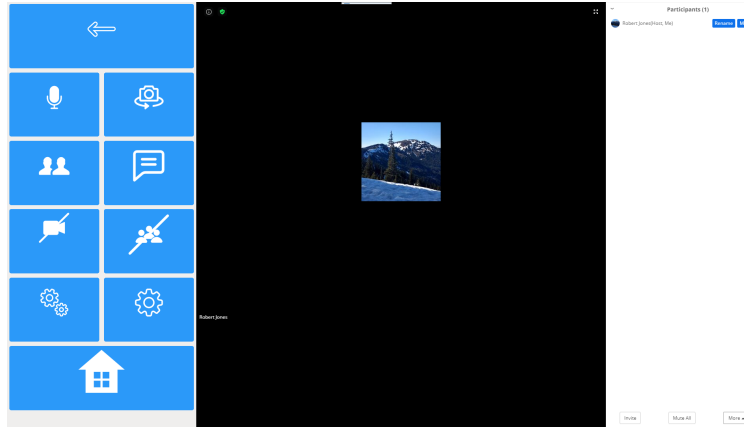

## 11.4 Zoom — Meeting Controls

Go to Accessible Zoom menu. For more information, see <i>11.5 Zoom — Zoom Menu, page 39</i>	 Back	
Raise you hand, to get the attention of the moderator. This will be visible in the Chat window.	 Raise Hand	
Open the chat window. In the chat window you will be able to read the messages that other participants wrote, and write your own messages to the participants.	 Chat View	
Open your Communicator keyboard, to type a message and have Communicator read it aloud so the other participants will be able to hear it.	 Speak	

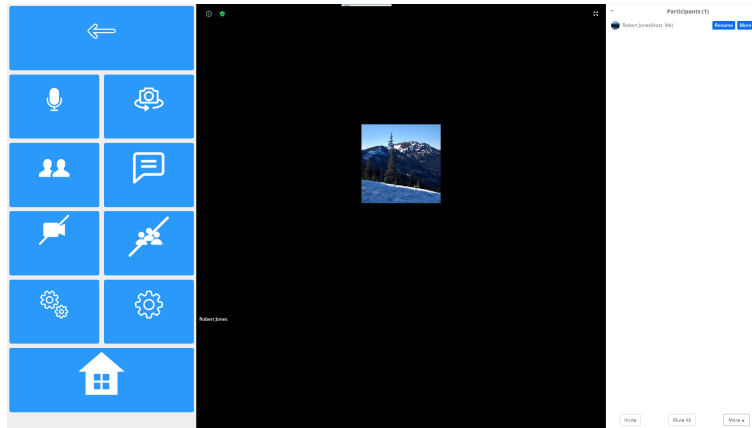

Stop sharing your screen.			Share your screen with the meeting participants.
Mute or unmute yourself. After entering a meeting, you will need to click this button to join with audio.			Start or stop sending video from your camera.

## 11.5 Zoom — Zoom Menu

Go to Accessible Zoom menu. For more information, see <i>11.5 Zoom — Zoom Menu, page 39</i>	 Back
