

# Creating a Schedule

Boardmaker is here for you during this unprecedented time

We all miss face-to-face instruction and therapy, which leads to many questions. How will I provide the instruction and intervention my learners need? How will I keep learning effective and engaging? Boardmaker wants to help you navigate home learning.

## Visual Schedule

Let's start with a visual schedule that provides support and structure for your learners. You can find a variety of visual supports in Boardmaker Online, including a 5 step schedule. You can use this schedule to make a morning routine. For example, you might customize the schedule with words and images for breakfast, reading, puzzles, chores and outside. As your learner completes each task, he can check it off the schedule and move to the next activity. Keep in mind, you can customize the schedule to meet your learner's individual needs.

This video demonstrates how you can make a visual schedule with Boardmaker Online.
