

## NV MCD Prescription and Face to Face notes

NV MCD only allows 30 to 60 days from the date your last face to face visit happens and the date a prescription is signed.

We ask that if possible you wait until you know your evaluation has been submitted to have the doctors appointment.

In this appointment please make sure that you specifically discuss the need for your speech generating device. NV MD Requires specific language be in the face to face notes regarding the need for the device. Please make sure your doctor knows this and adds information regarding the need to their notes.
