Ecosystem of Products

Eye Gaze and Education Solutions

A comprehensive portfolio of eye gaze solutions for communication, access, and education products designed to support users and their communication partners.

Power to be You

Eye Gaze Hardware

## Eye gaze enabled devices for communication and access

I-Series+

The I-12+ and I-15+ are speech generating devices that enable effective communication in all forms – from voice output, to computer access, and even environmental control. The rugged design, unparalleled power management, and touch and gaze input supports are just a few of the features that makes the I-Series+ an ideal solution for those who rely on augmentative and alternative communication (AAC).

EyeMobile Plus and EyeMobile Mini

The EyeMobiles are purpose-built bracket solutions for mobile communication and computer access on the go. The EyeMobile Plus includes eye tracking, speech recognition, built-in battery, switch, and IR for completely hands-free access to Windows 10. The EyeMobile Mini comes with eye tracking, Gaze Selection and the Functions Overlay so you are able to access all functions as well as the 600,000 apps that run on Windows tablets. Available with a Microsoft Surface Pro tablet or stand alone.

PCEye Plus and PCEye Mini

Replace your keyboard and mouse using the PCEyes, stand alone eye trackers that attach to your computer via a magnetic strip. The PCEye Plus and PCEye Mini allow you to surf the web, connect with friends online, use Skype, and more. The PCEye Plus also includes speech recognition, switch control, and IR control.

Environmental Control

Discover the power to interact with your environment via eye tracking.

EyeR featuring Virtual Remote software

EyeR is a uniquely designed, dedicated IR dongle made for use with eye tracking that enables environmental control by simply plugging it into a computer's USB port. It gives you the ability to control doors, lights, TVs, and more by yourself. EyeR and Virtual Remote software are compatible with Windows Control and Gaze Point. With these, you can use EyeR together with the EyeMobile Mini and PCEye Mini.

AAC Software

Robust and flexible communication systems

Snap + Core First

A symbol-based communication app designed to be the most intuitive solution on the market. Snap + Core First lets users start communicating quickly and stay engaged as they grow and evolve on their communication journey. Centered on Tobii Dynavox's Core First approach to delivering a systematic, proven, research-based Core Word framework, this app provides the fastest and most efficient platform for communication for all users including students, parents, and teachers.

Communicator 5

For emerging communicators to literate communicators, Communicator 5 is a software package designed to help individuals with communication disabilities communicate more efficiently. Communicator 5 converts text and symbols into clear speech, and offers easy-to-use tools for computer access, e-mail, text messaging, telephone, environmental control and more.

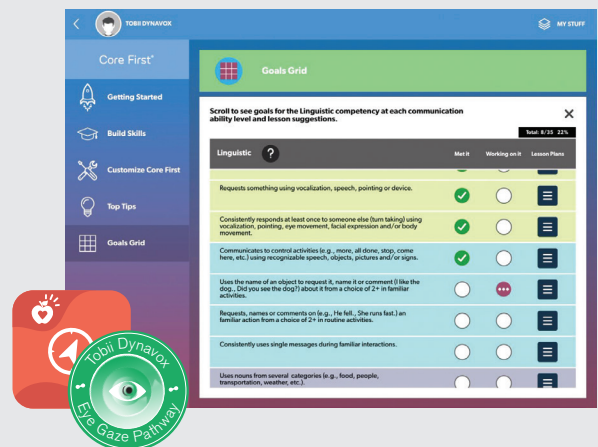

Gaze Viewer

Gaze Viewer is an assessment tool for the SLT, teacher, or parent. This software can help you understand an individual user's physical capabilities, cognitive understanding, and use of an eye tracker. Save the results as images or videos to be able to track progress.

Pathways

for Snap + Core First and Eye Gaze

Pathways is our framework for learning and understanding how to implement Tobii Dynavox software, hardware and ideas. Created by experienced clinicians and educators at Tobii Dynavox, Pathways is free and easily accessible for parents, caregivers, communication partners, and speech language therapists (SLTs) who are looking for expert guidance, best practice and a convenient way to develop their skills.

Education

Accessible learning tools and supports

Boardmaker Online

As the most accessible platform for creating and delivering symbol-based print and interactive activities for your students, Boardmaker Online is designed to support schools, classrooms, therapy teams and families. Join more than 500,000 members in our Community to take advantage of over 70,000 FREE print and interactive activities. Then bring the learning to life with the FREE Boardmaker Student Center app available on any tablet, computer or Tobii Dynavox device.

Start your free trial at **www.boardmakeronline.com**. Click '**sign up**' to begin.

Accessibility
Use any access method, from eye gaze to scanning to touch

Print and Interactive
Create and edit a variety of ready-made printable and on-screen activities

Efficiency
Minimize prep time by using pre-made resources and templates
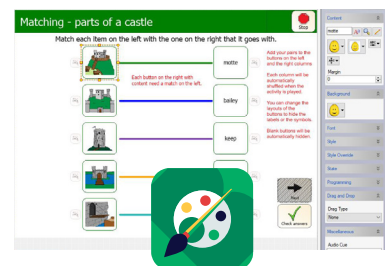

Core First Learning and Reading Avenue

Teach beginning communicators how to find, use and read core words on their AAC systems with Core First Learning. Then use our accessible, comprehensive, learn-to-read program, Reading Avenue, to provide three differentiated levels for all beginning readers with predictable daily lesson plans, visual schedules, and easy implementation supports for engaging, evidence-based literacy instruction.

Boardmaker Studio

Spend less time and achieve more with the new Boardmaker Studio for Windows – our most versatile solution and your complimentary supplement to Boardmaker Online. Windows users are now able to seamlessly download, edit, and re-upload any activity stored in Boardmaker Online and have it sync across both solutions.

### Boardmaker Activities-to-Go

A FREE collection of leveled thematic units featuring PCS for your learners with special needs. Download and start teaching today with games, books, communication boards, behavioural supports, and more.

Printable Core First Communication Boards

Low-tech versions of Snap + Core First are available in all grid sizes in PDF format and to edit in Boardmaker Online and Studio. They can be an introduction to modeling or used as a back-up to the Snap + Core First app.
