

# SC Tablet

The iOS based speech tablet transforming communication.

The Tobii Dynavox SC Tablet is a funded 6th generation, 128 GB iPad-based speech generating device for those who prefer the iOS platform. Weighing only 2.28 lbs and with a screen measuring 9.7", it is designed for users who can interact with a device using their hands, and/or who could use one or two switches. Protected by a no-questions asked 1-year Support360 warranty, SC Tablet will benefit individuals of all ages with speech and language disabilities.

## Be heard loud and clear

with two powerful, integrated and outward facing speakers that provide speech optimized voice output.

## Purpose-built features

include a built-in handle and kickstand. Mounting is also possible with pre-drilled screw holes for an external mount plate.

## An iOS solution designed for AAC

## Familiar iOS platform

means less time learning how to use the device and more time communicating.

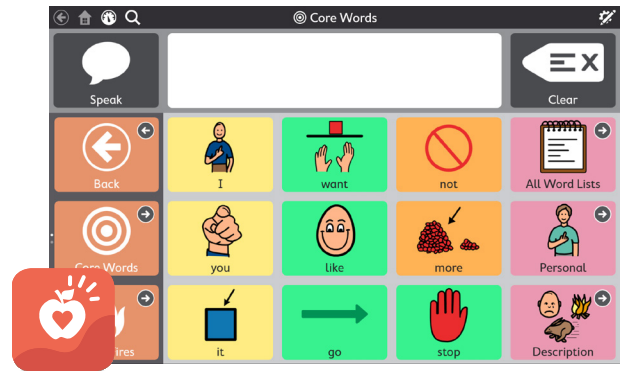

## Multiple access methods

include switch-scanning, touch with keyguards, etc.

## SC Tablet featuring Snap + Core First®

SC Tablet comes with Tobii Dynavox Snap + Core First, the ultimate in symbol-based communication software that takes you the whole way to literacy and independence. The research-based Core First pageset is centered on Tobii Dynavox's systematic delivery of Core Word vocabulary, Topics, Quick Fires, and Behavior Supports, which allows the user to begin their communication journey where they are, and continuously keeps them growing and moving forward.

### Technical support and warranty

SC Tablet comes with a no-questions asked, 1-year Support360 warranty. It provides telephone support and unmatched coverage, free-of-charge, for repair or replacement parts (including iPad), labor, and return shipping. 1 additional year of Support360 is available for \$299 and 2-years for \$549.
