Release Notes **Tobii Dynavox Snap + Core First**

for the Windows version

Release Version 1.2

Release date: 2017–12–12

New Features

- Introduction of Tobii Dynavox's first truly bilingual page set/user — Core First English/Spanish Bilingual.
    - All pages of the Core First English/Spanish Bilingual page set are available in Spanish and English.
    - Update all pages from English to Spanish, and from Spanish to English with a single button selection.
- Customers may select language-specific voices to support on the fly voice switching:
    - When the Message Window contains both English and Spanish text, the English text is spoken by the defined English voice and the Spanish text is spoken by the defined Spanish voice.
    - On the fly voice switching may also be used for speech from buttons.
- The following Acapela Spanish voices are now available in Snap: Antonio (Spain), Emilio (Spanish US), Ines (Spain), Maria (Spain), Rodrigo (Spanish US), Rosa (Spanish US), Valeria (Spanish US).
    - Two of the Spanish voices have matching English voices: Emilio English and Valeria English.
- The language of the Settings/Editing menu follows the language of the operating system, i.e., the Snap interface will be in Spanish if the OS is Spanish (US), Spanish (MX), Spanish (LA), or Spanish (ES).

Improvements

- The Setup Wizard has been updated for the bi-lingual user and ease of use.
- Automatic agreement added for Message Window text, for example, when the word 'a' is in the Message Window, then adding the word 'apple' updates 'a' to 'an.'
- The myTobiiDynavox password is now cleared when switching users.
- Bug fixes.

Release Version 1.1

Release date: 2017–10–09

New Features
