

Coronavirus Communication Support Materials

To help educators, parents, and learners during lockdown and to support learning from home the Tobii Dynavox team has created and gathered free support materials.

Core First Learning and Picture Communication Symbols (PCS®) are the foundation of our resources. Core First Learning is designed to teach communicators how to find, use, and read core words, which comprise 80% of our vocabulary. PCS® are the symbols that are consistently used in all resources to facilitate learning.

A resource overview is below. Your Tobii Dynavox Account Manager can support you in getting the most out of these great tools. Email, call or book a virtual appointment at www.tobiidynavox.com/find-us

Boardmaker Activities-to-Go

Program Overview: A free collection of 10 leveled thematic units featuring PCS®. In addition to books, each unit includes games, communication boards, behavior supports, and more.
